

Things I Love About Wyoming County

Have you ever been to Wyoming County? Wyoming County is a smaller county but there are many cool things here. Most people hunt, fish, and trail ride. There are Hatfield McCoy trails that people ride all the time. There is a special place called Twin Falls and there are trails and picnic areas. The Guyandotte River runs through Wyoming County and it has some great places along its banks to fish.

First, many people hunt here. They mostly hunt deer, squirrels, turkey, and raccoons. My dad takes me hunting for deer. This year I killed a 5 point buck with a bow. Here in Wyoming County you can only bow hunt for deer. My dad killed a small 8 point, and my mom killed a big 8 point. Hunting is a family activity that we enjoy every year.

Next, fishing is something that most people do in Wyoming County. People mostly fish for bass, trout, catfish, and carp. There are many lakes, creeks, and rivers to fish in. There are certain baits that work best like spinners, jerk baits, poppers, live bait, and swimbaits. My favorite place here to fish is in the Guyandotte River, because there are many different species of fish in it. My favorite fish to catch in the Guyandotte are smallmouth bass and rainbow trout.

Finally, trail riding is one of the most awesome things to do here. There are several mountains to ride on. There are trails that you have to buy a sticker to ride on such as the Hatfield McCoy trails. I go trail riding almost every day that I can. Some trails are harder to ride than others. On the Hatfield McCoy trails you get to see some very pretty place. You get to ride up some really big hills and through a lot of mud

sometimes. A lot of times I get really muddy and cold, but I don't care because it is a lot of fun.

Hunting, Fishing and trail riding are some things you can do in Wyoming County for fun. Twin Falls and the Hatfield McCoy Trails are a couple of awesome places to visit here. If you're looking for some great fishing you can visit the Guyandotte River. These are just a few things that I love about living in Wyoming County.
