What is one thing you would like to do now or in the future to make Wyoming County a better place?

I want to help people by creating jobs with businesses like building a Hospital in Oceana that is three to four stories high with at least a hundred and Fifty beds that will help people here, so they do not have to drive far if They get sick or in need of Emergency Medical Services quicker so They do not have a long way to be seen and it would also bring more jobs to Wyoming County, and it would help save on gas. And I would build a homeless shelter in Pineville WV (West Virginia), that will sleep fifty to a hundred people they will have a big tv room a place to take a hot shower and fresh hot meals every day I would also have a church room where they can pray and have services, I would also have a washer and dryer so they can have clean clothes I would hire security guards to keep everyone safe I would hire Janitors to keep everything clean and I would hire cooks to feed everyone I would also hire a teacher two days a week teaching them stuff about everyday life and to help teach them to read and write so they can get a job and better themselves, so I am hoping to Better Wyoming County with more Jobs and closer to their homes and just helping people.
